NCCAA Mission Statement

The National Christian College Athletic Association was incorporated to provide a Christian-based organization that functions uniquely as a national and international agency for the promotion of outreach and ministry, and for the maintenance, enhancement, and promotion of intercollegiate athletic competition in a Christian perspective. The very existence of the NCCAA speaks to the need of a different game plan for college athletics in the midst of an era when the very foundations of our society are being eroded morally. The NCCAA wants to step into the gap and become a vehicle for implementing morality and purpose of life through athletics in cooperation with member institutions and their student-athletes. The NCCAA game plan is to assist colleges in producing winners in the "game of life". Its intent is to assist the colleges and coaches in producing a game plan that will influence the student-athlete immediately as well as for his/her entire life: a plan that will challenge the student-athlete through district and national competition; a plan that expects academic credibility; a plan of maximum development through assisting college coaches with leadership, programs, and materials; a plan that encourages a mature functioning body of Christians able to serve school, & church.
