MSMA Hosts Barbara Brown Taylor Book Signing

Local fans of author Barbara Brown Taylor were among the first to see her new book, "Learning to Walk in the Dark," at a reception, reading, and book signing April 9 in Demorest. The free event was sponsored by the Piedmont College Mason-Scharfenstein Museum of Art.

In her 13th book, released worldwide just the day before, Taylor explores the ideas and traditions that equate darkness to the sinister. At the reception, she read selections from the book relating to the historical and religious connotations of caves. Read more here.
