

Piedmont College
4-year plan

Program: BS in Applied Health Science

Program Mission Statement: The applied health science program seeks to prepare undergraduate students for careers helping individuals achieve optimal health and fitness while leading more balanced and meaningful lives, rather than discovering or treating disease, by providing the theoretical foundations for nutritional planning, health and wellness promotion, and fitness prescription in both healthy and clinical populations through exemplary classroom and laboratory instruction. Furthermore, the program is dedicated to respecting individual diversity and engaging the community by exposing students to a variety of healthcare settings, practitioners, and patient populations.
