

## Outcome Assessment Plan: Healthcare Administration

**College:** Piedmont College dedicates itself to the transformative power of education through reciprocal learning, the development of compassionate leaders, and the stewardship of our local and global communities.

**School of Nursing and Health Sciences:** The R.H. Daniel School of Nursing and Health Sciences at Piedmont College shall be recognized as an exemplary professional academic program. The arts & sciences are the foundation upon which the students' intellectual endeavors are built, contributing to the provision of holistic care to clients that includes physical, psychosocial, spiritual, and environmental care. The School of Nursing and Health Sciences is dedicated to respect for diversity and to community outreach.

### **Program Mission:**

The healthcare administration program seeks to prepare undergraduate students for careers as managers or leaders in healthcare-related organizations by providing the theoretical foundations for business administration, health science, and customer service for working with both healthy and clinical populations through exemplary classroom instruction. Furthermore, the program is dedicated to respecting individual diversity and engaging the community by exposing students to a variety of healthcare settings, practitioners, and patient populations.

### **Program Goals:**

1. The Program is committed to enrolling 10 quality students, retaining 80% of students each year, and graduating them four years after program admission.
  - a. **Piedmont Goal Reference: GOAL 8.** Piedmont College will provide students the resources to achieve their academic goals in a timely fashion and meet learning outcomes expected in their degree programs.
  - b. **Outcome (non-student learning):** The number of students who matriculate into each cohort and persist.
  - c. **Measures:**
    - 1.Number of students declaring an HCAD major (10)
    - 2.Retention rate by cohort (80%)
    - 3.Graduation rate by cohort (80%)
2. The Program seeks to provide high quality instruction that integrates cognitive and psychomotor skills into active problem-solving abilities that will culminate in 90% of students having post-graduate placements (employment or graduate school) within six months of graduation.
  - a. **Piedmont Goal Reference: GOAL 1.** Piedmont College will attract and retain students, faculty, and staff, and engage alumni and friends, by providing experiences with the College that inspire in them a lifelong affinity with the institution.
  - b. **SLO 1: Students will integrate knowledge, skills, and values from the arts and sciences to engage in critical and creative dialogue through discovery, analysis, and communication.**
    - 1.1 Propose and apply methods of injury prevention and risk reduction for both healthy and at-risk individuals.
    - 1.2 Design healthcare administration plans that meet both client and organization goals.
    - 1.3 Demonstrate oral, written, and visual communication strategies that are organized,

- coherent, accurate, and professionally prepared and delivered.
- 1.4 Critically evaluate research findings to develop differential assessment and treatment plans for clients in different states of wellness.
- 1.5 Develop promotional strategies for healthy living and injury/disease prevention.
- c. **Measures:**
  - 1. Health Promotion Project (80% at 3.5 on the rubric)-QEP3
  - 2. Health Processes Poster (80% at 3.5 on the rubric)-QEP3
  - 3. Alumni Survey (respondents will rate 80% of program attributes at 5.25 and 80% of the SLOs at 4.8)
  - 4. Capstone Reflection Paper (80% at 3 on the rubric)-QEP2
- 3. The Program is committed to supporting a minimum of one student in an internship or other experiential learning experience each year.
  - a. **Piedmont Goal Reference: GOAL 4.** Piedmont College will offer traditional and innovative academic programs that are rigorous in content and flexible in real-world application.
  - b. **SLO 2: Students will work collaboratively through interprofessional teams to provide or accommodate quality care to clients across the lifespan in a variety of settings, while respecting the diversity of individuals, groups, and communities.**
    - 2.1 Apply clinical reasoning skills throughout the fitness/wellness assessment process in order to assimilate data, select the appropriate assessment tests, formulate goals, develop plans to meet those goals, and make appropriate referrals.
    - 2.2 Demonstrate knowledge of healthcare policy, law, finance, and regulatory environments, including local, national, and global trends and adapt this information to best serve the client's needs.
    - 2.3 Implement, evaluate, and modify healthcare decisions for both healthy and at-risk individuals through collaboration with allied healthcare providers.
    - 2.4 Create, evaluate, and modify an administration environment conducive to efficiency and enhanced client satisfaction.
    - 2.5 Demonstrate cultural competence in the care of clients from diverse backgrounds.
  - c. **Measures:**
    - 1. Coding Project (80% at 3.5 on the rubric)
    - 2. Health Policy Project (80% at 4 on the rubric)-QEP5
    - 3. Exit Survey (Respondents will score 80% of program attributes  $\geq 5.25$  on the rubric, a minimum of one graduate will have completed experiential learning prior to graduation, and 90% will have post-graduate placements within 6 months of graduating)
- 4. The Program is committed to increasing the number of qualified full-time faculty and providing professional mentoring.
  - a. **Piedmont Goal Reference: GOAL 6.** Piedmont College will educate the whole student through co-curricular programs, extra-curricular activities, and experiential learning endeavors.
  - b. **SLO 3: Through civic engagement, personal growth, and ethical reasoning, students will demonstrate responsible, global citizenship by upholding high professional standards.**
    - 3.1 Identify state and national regulations and demonstrate professional, moral, and

ethical judgment when delivering client-centered care.

3.2 Adapt evidence-based practice concepts when making clinical decisions and critically examining health science practice.

3.3 Develop and evaluate promotional and management strategies in the context of a healthcare system (i.e. risk management, healthcare delivery mechanisms, documentation, client privacy, and financial analysis).

3.4 Use appropriate professional guidelines to develop, implement, evaluate, and modify client care strategies in the changing healthcare environment.

3.5 Demonstrate a commitment to professional growth and development.

c. **Measures:**

1. Research Methods Paper and Presentation (80% at 3.75 on the rubric)-QEP1
2. Capstone Paper and Presentation (80% at 4.0 on the rubric)-QEP5
3. Piedmont 1101 Reflection Paper (80% at 2 on the rubric)-QEP4, QEP6

	Narrative	APHS: Met. This program retained at 112% (-21 percentage points). All students graduated on time.																							
Pre-ATHL: Met. This program retained at 94% (+8 percentage points).																									
CVTE: Met. This program retained at 100% (does not include students finishing in December due to COVID; no change)																									
Pre-CVTE: Not Met (no pre-CVTE majors retained spring to fall due to closing the program)																									
EXSS: Met. This program retained at 96% (-25 percentage points due to students changing majors to APHS). One student chose not to graduate this year; instead, she will return to take pre-PA classes. All others graduated on time.																									
HCAD: Met. This program retained at 100%. (no change) All students graduated on time.																									
SFAD: Met. This program retained at 110%. (no change) One student will graduate in summer 2021; all others graduated on time.																									
Plan	<ul style="list-style-type: none"><li>Continue to monitor enrollment numbers and trends to ensure program offerings meet student needs.</li><li>Expand the HLSC club to attract higher membership and more quality participation</li></ul>																								
Timeline for Improvement	<ul style="list-style-type: none"><li>Data trends will be monitored in fall 2021 (A. Dondanville)</li><li>The HLSC club will be reinvigorated by attracting new/younger students through freshmen and sophomore level courses Fall 2020 (G. Ryan and B. Reynolds)</li></ul>

<b>Narrative</b>	<p>This goal was met, as 95% of overall students enrolled met the target rubric score (19/20). This represents a 15 point percentage point increase from last year. In general, this was a larger and academically stronger overall group that previous classes - especially with writing skills. Theory or model integration continues to be problematic for some students, which should be addressed in future offerings.</p> <p>APHS: 7/8 Pre-ATRG: 4/4 HCAD: SFAD: 3/3</p>																																																																																																										

	Other: 5/5

<b>Narrative</b>	<p>This goal was met, as 100% of overall students met or exceeded the rubric target (20/20). This represents an 11 point improvement from last year. This improvement is attributed to class time being dedicated to viewing examples of PSAs and for students to work through their ideas in small groups. This group also was very capable with technology, with many of the PSAs being completed as iMovies, which were much higher quality.</p> <p>APHS: 8/8 Pre-ATRG: 4/4 HCAD: SFAD: 3/3 Other: 5/5</p>

Narrative	<p>Note: HSCS3302 is no longer offered; the assignment was moved to HSCS2220 (the replacement course) in spring 2020.</p> <p>This goal was met, as 100% of students met or exceeded the rubric target (19/19). Overall, scores are the same as last year, but this includes increases in “diagnostic procedures” (+1.21), “etiology” (+0.48), and “prevention” (+0.98), and a decrease (-0.39) in “treatment”. The scores for, “diagnostic procedures” and “treatment”, while still meeting the target, were largely due to students simply not including the information and/or utilizing either a vague or overly scientific reference that would not be understood by the target population.</p> <p>APHS: 4/4 CVTE: 6/6 EXSS: 5/5</p>																																																																																											

	HCAD: 1/1 SFAD: n/a Other: 2/2
<b>Plan</b>	<ul style="list-style-type: none"> <li>• The assignment and rubric will be used again in fall 2021.</li> <li>• The assignment instructions will be updated to more clearly identify what information should be included and how that information should be presented to the target audience regarding the areas mentioned in the narrative.</li> </ul>
<b>Timeline for Improvement</b>	<ul style="list-style-type: none"> <li>• These data will be next collected in fall 2021 (J. Fouts).</li> </ul>

<b>Description</b>	Alumni Survey					
<b>Outcome</b>	Students will work collaboratively through interprofessional teams to provide or accommodate quality care to clients across the lifespan in a variety of settings, while respecting the diversity of individuals, groups, and communities.					
<b>Target</b>	Respondents will score 80% of program attributes >5.25 (out of 6) on the rubric and rate 80% of SLOs >4.8 (out of 6)					
<b>Sample</b>	Students who have graduated (conducted every 5 years)

This is the first year of data collection, and overall, there was only one student of the eighteen who responded that felt the program (EXSS) didn't meet the mark on attributes and one of thirteen (HCAD) who rated the program SLOs poorly. It is interesting that each of these two students rated the other portion of the survey at or above the target level. Unfortunately, we feel that the response rate was too low (23%; 18 of 79).

Narrative	<p>This goal was met, as 100% of all students (11/11) scored &gt;3 on the associated rubric. While this is a slight increase from last year (+5), individual content scores dropped. This is likely due to a different individual scoring students this year compared to last. Overall, we are pleased with the effort put forth on the assignment making connections between varied aspects of their education.</p> <p>APHS: 2/2 CVTE: 2/2 EXSS: 3/3 HCAD: 1/1 SFAD: 3/3</p>																																																																															
Plan	<ul style="list-style-type: none"><li>Continue assessing undergraduate students in the capstone course (HSCS4450); no change in administration planned, but a new faculty member will lead the course in spring 2022 (G. Ryan).</li></ul>																																																																															
Timeline for Improvement	<ul style="list-style-type: none"><li>Next data collection in spring 2022</li></ul>

## Health Policy and Law Paper Rubric Scores

<b>Narrative</b>	<p>This goal was not met overall, as only 67% of students met or exceeded the rubric target (8/12 - Two students in FA20 did not submit the assignment). This represents a –3 reduction from last year and a –22 reduction from 2018. This is the second year summer data has been included, and it has been disaggregated from the fall. While the data shows some consistency, it also highlights the struggles of students to communicate their ideas in a written format. The same type of scores are not seen in the presentations, which cover the same content. While it is possible students are simply more comfortable presenting the information than writing it, it must be considered that assignments are not providing students with enough opportunities to convey their ideas in a written format.</p> <p>APHS: 0/1 CVTE: 0/1 HCAD: Other HLSC: 3/3 Summer HLSC: 1/1 Summer CVTE: 3/8 Summer Other: 1/1</p>

Narrative	<p>This goal was met, as 100% of students met or exceeded the rubric target. This represents a +11 improvement from last year. This is the second year summer data has been included, and it has been disaggregated from the fall. While these results show that students are capable of providing high quality work for presentations, it is confounding that it does not translate to the written projects.</p> <p>APHS: 2/2 CVTE: 1/1 HCAD: 1/1</p>																																																																																																																															

	Other HLSC: 3/3 Summer HLSC: 1/1 Summer Other: 1/1 Summer CVTE: 8/8
<b>Plan</b>	<ul style="list-style-type: none"> <li>Continue to offer the assignment as designed, while working on the skills necessary to translate the content to a written format.</li> </ul>
<b>Timeline for Improvement</b>	<ul style="list-style-type: none"> <li>Data will be collected in summer and fall 2021 (J. Koshuta)</li> </ul>

Description	Exit Survey																																																									
Outcome	Students will integrate knowledge, skills, and values from the arts and sciences to engage in critical and creative dialogue through discovery, analysis, and communication.																																																									
Target	Respondents will score 80% of program attributes $\geq 5.25$ on the rubric, a minimum of one graduate will have completed experiential learning prior to graduation, and 90% will have post-graduate placements within 6 months of graduating (CVTE students within 3 months)																																																									
Sample	Students enrolled in HSCS4450 and CVTE graduates in July

CVTE Clinical Year Results	Targets																																																																												
	Attribute Average Score																																																																												
Narrative HLSC	The overall target was met, as 89% (8/9) of students rated the program attributes >5.25 (11-points improved). Four of six programs with survey responses met or exceeded the target, but CVTE.BS (29%) and EXSS (40%) majors brought the average down. These two majors have historically rated the program lower than the others (33% and 67%, respectively, last year). It is possible that the traditionally very difficult non-HLSC courses that EXSS students take in the senior year (Physics, Organic Chemistry, and Biochemistry) could reduce students’ overall perception/satisfaction with school. Similarly, CVTE.BS students are in class or clinicals 8hrs per day 5 days per week, which is also a heavier burden than they would have experienced previously. Lastly, 19/21 (90%) report having post-graduation placement secured (as of April 27, 2020). APHS: 5.6 (1) CVTE.BS: 5.4 (1) CVTE.ND: EXSS: 6.7 (2) HCAD: 4.2 (1) SFAD: 6.35 (4)																																																																												
CVTE Clinical Year Narrative	The target was met, as 94% of all CVTE clinical year students rated program attributes >4 on the rubric (9/10). Individual areas also remained stable in all but two areas. 1) Exam preparation increased 1.2 points from 3.7 to 4.9, and 2) Improved opportunities dropped 0.6 points from 5 to 4.4. The improved exam preparation scores are likely related to the creation of an exam study site in the college LMS, which offered students the ability to complete practice exams. And the low opportunities score is traced to one student who rated this category 0/5. Of note is that this student was placed on probation 3 times (1 beyond the program maximum) for failure to progress clinically and failing scores on clinical evaluations.																																																																												
Plan	<ul style="list-style-type: none"><li>EXSS: The EXSS major was modified in spring 2020 to eliminate the need for students to take either Organic Chemistry or Biochemistry (they may still choose to do so, however). The School of Arts and Sciences has also agreed to offer a non-calculus</li></ul>																																																																												

	<p>based Physics sequence beginning in Fall 2021</p> <ul style="list-style-type: none"> <li>• HCAD: This program is declining enrollment and may be discontinued (TBD by the CFO)</li> </ul>
<b>Timeline for Improvement</b>	<ul style="list-style-type: none"> <li>• Reassess all programs spring 2022 (all faculty)</li> </ul>

Description	Research Methods Paper

Narrative	While this target was almost met overall at 73% (-7 point from threshold), it represents a -6 point decline from last year. There was little change for EXSS and APHS students, but CVTE declined -50 and SFAD -67 from last year to fall well below the target. Since the average score and most rubric areas remained the same or improved, the decline is attributed to students’ inabilities to meet their allotted speaking time, with most exceeding it by nearly 50%. APHS: 2/2 CVTE: 1/2 EXSS: 3/3 HCAD: 1/1 SFAD: 1/3					
Plan	<ul style="list-style-type: none"><li>The additional practice activities in the course appear to have helped clarify which material belongs in each section of the project. Narrative	While this target was not met overall at only 55% on target (-45), this number reflects lack of student effort rather than lack of ability. The two areas that fell below the target did so by 0.09 and 0.07 points on the rubric (very close). In the fall (2020), students wrote the rough draft of this paper, and 11/11 met the target. Unfortunately, 5 of them chose to not address the noted shortfalls in that draft or add to it (basically submitting the same document in both courses with little effort to improve it). This is frustrating, as the group did considerably better than previous cohorts on data collection and analysis. APHS: 2/2 CVTE: 1/2 EXSS: 2/3 HCAD: 0/1 SFAD: 1/3																																																	
Plan	<ul style="list-style-type: none"><li>Continue to require this assignment in it's current form.</li></ul>																																																	
Timeline for Improvement	<ul style="list-style-type: none"><li>Additional emphasis on making improvements will be included in HSCS4450 in the spring 2022. (A. Dondanville or faculty as assigned)</li></ul>

Narrative	While this goal was met at 100% on target (no change), this number does represent declines in all but one category (delivery and eye contact). All capstone presentations were graded by all HLSC faculty, with the mathematical average used for each rubric score. This is the first year that projects have been scored in this manner, and it may be a more nuanced representation of their actual ability (reduce bias in scoring).

Narrative	<p>This goal was not met, as only 13% of all students (4 of 30) met or exceeded the target. This is a significant drop from last year (75%) and is far from the 80% goal. All five subscales dropped. These results closely align with the overall course grades, which were lower than any previous sections. In 2019, 70% of students earned an “A,” while the current section had 36% earn an “A.” Several factors could be contributing to these changes. First, many of the course lessons were provided via Zoom, which could have impacted the quality of the course. With more face-to-face contact, it is possible students could have more effectively learned and applied the skills necessary to complete high quality reflections. In addition, this group of students struggled to not only submit assignments by assigned due dates, but simply attend the class. Many students completed the course with several unexcused absences and missing assignments. One final reason for the significant changes in reflection scores is the instructor’s comfort with both the assignment and the application of the rubric. Both expectations for the assignment and how to apply the rubric have more clarity. Purposefully emphasizing the skills necessary to complete this assignment will be part of future offerings.</p> <p>APHS: 1/6 Pre-ATRG: 1/9 CVTE: no data EXSS: 1/10 HCAD: 1/2 SFAD: 0/2 Other: 0/1</p>
